Advanced Singing Call School

What to Expect and Testimonials

Singing calls make up 50% of your dance and make no mistake, this is an Advanced Singing Call school. We will cover vocal presentation, choreography, and overall performance of a singing call. Our goal is to help you to be as good as you can be for at least half of your dance. The icing on the cake is a trip to the studio to record a vocal on your own singing call, knowing you are fully prepared to step up to the microphone and sing. This is an intense *singing call* school and is not designed to improve your patter calling beyond the aspect of music and presentation. (We have a large percentage of return attendees so we must be doing something right.) Come on out and put some pizzazz in your performance. Plus, we guarantee you the very best music that is available in our industry.

- Wade Driver

I had the privilege of attending Wade's 2022 school as a teacher's aide, and so much about that experience impressed me. It's not an overstatement to say that Wade is a legend in the square dance music business, nor is it an overstatement to say that I watched him pull the best out of each and every student. While the most tangible product of the school comes from the studio experience, the intangibles are priceless. I was so impressed with how hard the students worked and how much improvement was achieved. I am excited and honored to have been invited to partner with Wade on this unique school focused on singing call presentation. We hope you'll join us and be prepared to work hard and have some fun. You are guaranteed to learn new things about yourself and grow!

- Shauna Kaaria

This school was beyond helpful. Everything from delivery of a complete dance to direct instruction on ways to improve. You can't improve if all you get is "great job." Wade and Shauna provided comments on delivery, tone, control, technique and equipment use. Almost anything you can imagine regarding music, recording, delivery, as they shared their decades of experience. They also created an environment that fostered the students to support and encourage each other.

- Michele

There was plenty of mic time with personal attention to every detail of timing, tone, and delivery. It was a real thrill to hold the mic and work intensely with these masters of the art of singing calls.

- Karin Rabe and Greg Moore

Thank you so much, Wade-san for awesome singing school with full of passion!! All of us were so impressed with your deepest respect and love for all songs.

- Jake

I have attended one of Wade's singing call schools. I found the school very helpful and enjoyed meeting the other attendees. Wade presents a lot of good information and worked with all of us to improve our singing and presentation. You also can not help but learn from the other attendees as well. The comradery was great! Going through the process of learning and recording a singing call was a great experience.

- Bruce
